Bryan Berrent (+1 (631) 972-8183)

CS 370 Group Chat

10:39:02

Bryan

10:39:30

Brian Malsan (+1 (518) 894-0132)

Brian Malsan

10:39:31

Alex Stewart (+1 (518) 860-4845 )

Alex Stewart

10:39:46

Ian Kurzrock (+1 (845) 807-4090 )

10:39:55

Ian Kurzrock

Bryan Berrent (+1 (631) 972-8183)

Bryan Berrent

10:40:22

Friday, January 27, 2017

Ian Kurzrock (+1 (845) 807-4090 )

06:46:28

Hey guys , so is everyone free around 2:00 tomorrow? Would we all be able to meet up 2:00 or 3:00 in the ADK lounge since we all live in ADK ?

Brian Malsan (+1 (518) 894-0132)

I can do either

06:47:09

Bryan Berrent (+1 (631) 972-8183 )

I cant do tomorrow unless it 's late .  
Sunday I'm free

06:56:05

Brian Malsan (+1 (518) 894-0132 )

Sunday works for me

06:56:50

Ian Kurzrock (+1 (845) 807-4090 )

06:57:01

Sunday is fine , what time would be the best?

Alex Stewart (+1 (518) 860-4845 )

Sunday works for me too

06:57:17

Bryan Berrent (+1 (631) 972-8183 )

Don't matter . How's like 1? We could get a study room in the library

06:58:12

Brian Malsan (+1 (518) 894-0132 )

1 works

06:58:35

Bryan Berrent (+1 (631) 972-8183)

06:59:32

Ian Kurzrock (+1 (845) 807-4090)

07:00:21

Yeah that's fine

Saturday, January 28, 2017

Matt Thauvette (+1 (315) 744-7171)

Sounds good.

05:30:16

Sunday, January 29, 2017

Bryan Berrent (+1 (631) 972-8183)

Yup

11:04:51

Matt Thauvette (+1 (315) 744-7171)

Yep

11:54:30

Alex Stewart (+1 (518) 860-4845)

Yup

12:08:36

Bryan Berrent (+1 (631) 972-8183)

Alex and I are upstairs in a study room

01:01:54

Brian Malsan (+1 (518) 894-0132)

Ian and I are almost there

01:06:19

Ian Kurzrock (+1 (845) 807-4090)

I got SDL working on my computer , if you guys want I can help everyone get it working on theirs too tomorrow in class , particularly the windows people , I know Matt already has his working

Bryan Berrent (+1 (631) 972-8183)

I'll need some help tomorrow

08:13:44

Ian Kurzrock (+1 (845) 807-4090)

Alright tomorrow's goal will be to get it working and play around with the SDL library

Monday, January 30, 2017

Alex Stewart (+1 (518) 860-4845)

I got SDL\_Image working and was able to load a image

02:45:51

Bryan Berrent (+1 (631) 972-8183)

Help me later pleaseeeeeeeeeee

02:47:04

Ian Kurzrock (+1 (845) 807-4090)

03:01:28

Great! Making progress

Monday, February 6, 2017

Bryan Berrent (+1 (631) 972-8183)

You got it

08:55:19

08:54:20

Ian Kurzrock (+1 (845) 807-4090)

Hey guys bring your computer chargers, I'll bring a power strip so we can all plug in today and get work done on the project

Wednesday, February 8, 2017

Bryan Berrent (+1 (631) 972-8183)

Sounds good to me

03:54:27

03:38:37

Ian Kurzrock (+1 (845) 807-4090)

Hey guys , so I have some video software to record our programs in . If you guys post to the drive your source code I can compile it , run it, and record what happens on screen . I say when we get together Sunday we can all do this and practice our presentation for Monday.

Sunday, February 12, 2017

Matt Thauvette (+1 (315) 744-7171)

Hey guys , I'm going to sleep now . When (& where) are we going to meet up today? I can be ready by around noon or so (or earlier, if you really need me in the morning ), although I'd prefer 1:30 or 2 at the earliest .

04:27:01

09:57:27

Ian Kurzrock (+1 (845) 807-4090)

I would like to meet up in a library study room . Alex what time are you going to be back on campus ? Let's try to shoot for a time we can all get back together

Alex Stewart (+1 (518) 860-4845)

I'm back on campus so I 'm free any time

10:26:55

Bryan Berrent (+1 (631) 972-8183)

Could we meet like around 2? If we all don't want to walk to Library , we could meet in my suite since it 's a shorter walk?

12:00:06

Ian Kurzrock (+1 (845) 807-4090)

I'm down for that

So is everyone up to meeting in Bryan's suite at 2:00?

Alex Stewart (+1 (518) 860-4845)

Yes

01:14:55

Ian Kurzrock (+1 (845) 807-4090)

What building are you in ?

Matt Thauvette (+1 (315) 744-7171)

Sounds good

01:15:21

Bryan Berrent (+1 (631) 972-8183)

Adk F 1 btw

01:15:30

Ian Kurzrock (+1 (845) 807-4090)

Alright great

Brian Malsan (+1 (518) 894-0132)

Sorry I'm not there guys . In New Jersey with the volleyball team . Just let me know what you want me to do and if it doesn't need wifi I can do it on the ride back to school

02:14:55

Ian Kurzrock (+1 (845) 807-4090)

Brian

04:59:02

Can you take a look at our presentation on your computer

Brian Malsan (+1 (518) 894-0132)

I can't on my computer because I 'm on the bus . But I'll try it on my phone

04:59:50

I like it we just need the demo videos . Do we have an example of map by any chance ? So we can show what are plan is with the map

05:03:40

Ian Kurzrock (+1 (845) 807-4090)

05:11:08

I have the videos and will have them  
unloaded to the slide show  
momentarily , we are all eating dinner

Brian Malsan (+1 (518) 894-0132)

Very cool . Nice job guys !

05:11:50

Matt Thauvette (+1 (315) 744-7171)

There's no map stuff yet , although we  
could maybe talk about it .

05:12:13

Brian Malsan (+1 (518) 894-0132)

I think in the layers texture talk we can  
talk about the map

05:12:59

Bryan Berrent (+1 (631) 972-8183)

Did we have to have a proposal written  
up??

07:03:59

Brian Malsan (+1 (518) 894-0132)

Yes

07:04:35

Bryan Berrent (+1 (631) 972-8183)

What do we have to write up for it ??

07:05:40

Brian Malsan (+1 (518) 894-0132)

What our plan for the next cycle is . I  
believe

07:06:47

Bryan Berrent (+1 (631) 972-8183)

Alrighty . Did he talk about that ??? I put  
a slide saying what our plan is for the  
next but do we have to elaborate it in a  
proposal and if so , you think you could  
make something by tomorrow based  
on that slide ??

07:10:07

Ian did you add the vids to the  
powerpoint yet ?

08:59:50

Ian Kurzrock (+1 (845) 807-4090)

09:01:49

Almost , was actually going to get to  
that now

Bryan Berrent (+1 (631) 972-8183)

Perfect. I'm typing up our proposal now

09:03:56

Ian Kurzrock (+1 (845) 807-4090)

09:51:07

I added some videos

Bryan Berrent (+1 (631) 972-8183)

Perfect. I finished the proposal and I'm going to finish the meeting write up after I shower. Feel free to take a look and edit it. Otherwise I print it as is

09:52:43

Ian Kurzrock (+1 (845) 807-4090)

10:01:59

I'm gonna edit the slides a little bit

Monday, February 13, 2017

Brian Malsan (+1 (518) 894-0132)

Yes. I think all we have to do is elaborate on cycle #2. What we can get done during that

12:07:44

Ian Kurzrock (+1 (845) 807-4090)

08:01:54

Hey guys, Brian and I are going to go and print out our proposal and our two evaluation forms before class. I encourage you guys to do the same before you come to class, just so everyone has one to hand in

Thursday, February 16, 2017

Ian Kurzrock (+1 (845) 807-4090)

09:24:36

Hey guys, who is free 4-6 today? We just need to meet up for probably no more than an hour to delegate the different tasks for our project.

Brian Malsan (+1 (518) 894-0132)

I can do that

09:26:48

Bryan Berrent (+1 (631) 972-8183)

Works for me

10:26:38

Ian Kurzrock (+1 (845) 807-4090)

12:02:49

Library or ADK F?

Bryan Berrent (+1 (631) 972-8183)

Doesn't matter to me

12:04:17

Ian Kurzrock (+1 (845) 807-4090)

01:03:14

Alright so how about the Library at 4? Brian and I will already be in Donovan and can just walk over to the Library

Bryan Berrent (+1 (631) 972-8183)

Okay that's fine

01:04:30

Matt Thauvette (+1 (315) 744-7171)

Sounds good

01:43:57

Bryan Berrent (+1 (631) 972-8183)

I got a study room on the 1st floor so come by whenever

03:41:20

Alex Stewart (+1 (518) 860-4845)

I'm headed over now

03:49:48

Brian Malsan (+1 (518) 894-0132)

Ian and I are on our way

03:50:51

Saturday, February 18, 2017

Ian Kurzrock (+1 (845) 807-4090)

If you guys didn't already see Confer posted the status report sheet . Do we want to fill it out as a group , or does somebody want /has done it already ?

Bryan Berrent (+1 (631) 972-8183)

I can fill it out tomorrow

10:43:32

Or even tonight.

10:43:43

How's the code going with you and Brian btw ?

10:44:27

Brian Malsan (+1 (518) 894-0132)

I haven't had a chance to work on it . I've been working on a paper . Going to do it tomorrow

10:45:41

Bryan Berrent (+1 (631) 972-8183)

10:46:25

No worries. Just checking in

Ian Kurzrock (+1 (845) 807-4090)

Same , same assignment for me to do . We will start working on it tomorrow

Bryan Berrent (+1 (631) 972-8183)

10:49:28

Perfrct

10:49:34

\*perfect

Sunday, February 19, 2017

Bryan Berrent (+1 (631) 972-8183)

11:25:07

Just clarify , with the user features section , is that things we plan on having in the future based on what we put in the status report , what we have already done so far or both ?

Ian Kurzrock (+1 (845) 807-4090)

11:29:39

Just like the main things we are working towards this cycle

Bryan Berrent (+1 (631) 972-8183)

Alright perfect . I'm all set then . Look at the documents when you can and then I'll submit it

11:41:52

Brian Malsan (+1 (518) 894-0132)

I think all we need is the team actions table

11:46:17

Bryan Berrent (+1 (631) 972-8183)

That's on the other sheet . There's two sheets on that document

11:47:15

Ian Kurzrock (+1 (845) 807-4090)

11:48:01

Yeah it was the table he couldn't get to add up the numbers

Brian Malsan (+1 (518) 894-0132)

Gotcha

11:49:47

I think if you are a tester or a coder on a feature then you are also a reviewer for that feature.

11:54:29

Bryan Berrent (+1 (631) 972-8183)

Yeah that would make sense .

11:57:53

Brian Malsan (+1 (518) 894-0132)

I also think planned hours this cycle is  $12^*$  the number of weeks in the cycle . So 36. And I think that 's the same for everyone

12:01:18

Bryan Berrent (+1 (631) 972-8183)

I thought our total number was 32 so a divided up like that but that makes sense now

12:09:35

Brian Malsan (+1 (518) 894-0132)

I'll change it . Everything else looks good. Other guys just take a look

12:11:04

Bryan Berrent (+1 (631) 972-8183)

Status report submitted

02:05:15

Matt Thauvette (+1 (315) 744-7171)

Hey guys , I'm pretty sick so I may not come to class tomorrow . Is there anything I can get started on if I do stay in my dorm ?

08:02:54

Monday, February 20, 2017

Ian Kurzrock (+1 (845) 807-4090)

Hey Matt , can you recreate the movement for the game ? We plan on having movement used in functions so keep that in mind

09:45:08

And make sure you log what you do and for how long , that's very important

Matt Thauvette (+1 (315) 744-7171)

I'm omw to class

09:53:55

Thursday, February 23, 2017

Bryan Berrent (+1 (631) 972-8183)

Matt did you finish coding ?

05:39:20

Matt Thauvette (+1 (315) 744-7171 )

I put some stuff up on the bit bucket repo wednesday , haven't looked at it since .

05:41:24

Bryan Berrent (+1 (631) 972-8183)

Got it

05:49:47

Saturday, February 25, 2017

Ian Kurzrock (+1 (845) 807-4090)

Hey Matt are you free anytime today for you and I to get together ? I would like to incorporate your movement into Brian and I's map and car loading .

10:54:43

Hopefully after we combine those two , we can send it off to Bryan and Matt to work on collision detection with the movement we established .

Matt Thauvette (+1 (315) 744-7171 )

I'm open, yeah. Just getting lunch now , although I'll need to grab my laptop from my dorm afterwards .

01:14:15

Ian Kurzrock (+1 (845) 807-4090)

What time is best ?

02:13:44

And where?

02:13:50

Matt Thauvette (+1 (315) 744-7171 )

Whenever and wherever. Just not outside , because it 's raining .

02:15:09

Ian Kurzrock (+1 (845) 807-4090 )

06:09:23

I don't think I 'm gonna meet up with you Matt

Matt Thauvette (+1 (315) 744-7171 )

Yeah, that's fine. My stuff is in the repo anyways , and we can work on stuff monday .

06:22:59

Sunday, February 26, 2017

Ian Kurzrock (+1 (845) 807-4090 )

11:19:28

We need to do a status report today right?

Bryan Berrent (+1 (631) 972-8183 )

Yup. Alex and I are going to do it after lunch

12:05:14

Ian Kurzrock (+1 (845) 807-4090 )

12:33:54

Alright sounds good guys

Bryan Berrent (+1 (631) 972-8183 )

We already started some of it yesterday so feel free to take a look at it if you think something is missing

12:34:56

Ian Kurzrock (+1 (845) 807-4090 )

01:45:37

Make sure to log your hours this cycle in the "Hours Cycle 1" google sheet

Bryan Berrent (+1 (631) 972-8183 )

Alex and I just added our hours . We are just waiting on Matt to add his things . Also we can 't test Matt 's code because there 's nothing in main . If that was his plan and he just wants us to review the movement functions , then we can do that

01:56:07

Also I added to for objectives for next week to work on the presentation if that's okay with you guys ?

01:57:03

Once Matt submits his hours , we are good to go with the status report

01:57:27

Brian Malsan (+1 (518) 894-0132 )

Presentation works . The plan is to put some visuals to the movement so you can test it first .

02:00:11

Bryan Berrent (+1 (631) 972-8183)

Matt let me know when you add your hours

02:36:08

No spot for the status report this week on blackboard . I'll print it out thought just to be safe

03:07:33

Ian Kurzrock (+1 (845) 807-4090)

You're the man Bryan

Bryan Berrent (+1 (631) 972-8183)

03:24:45

Monday, February 27, 2017

Ian Kurzrock (+1 (845) 807-4090)

Hey Alex and Bryan , did you print off that status report ? Or would you like me to do it ?

Bryan Berrent (+1 (631) 972-8183)

Printed it last night 😎

09:13:46

Ian Kurzrock (+1 (845) 807-4090)

Awesome 👍😎

Matt Thauvette (+1 (315) 744-7171)

Yo, ian, I'm getting dinner now . If you want to work on the code together some more I 'm open once I finish .

06:34:48

Ian Kurzrock (+1 (845) 807-4090)

Okay , can we meet 8-8:30 tonight?

Matt Thauvette (+1 (315) 744-7171)

Half an hour should be fine , yep. Just let me know where .

07:07:27

Ian Kurzrock (+1 (845) 807-4090)

Between your suite , my suite and the lounge which is best ?

Matt Thauvette (+1 (315) 744-7171)

Lounge should work

07:47:20

08:06:18

Adk lounge , right?

Ian Kurzrock (+1 (845) 807-4090)

I'll let you know I 'm heading over there , I'm at the gym right now

Matt Thauvette (+1 (315) 744-7171 )

No problem

08:07:23

Bryan Berrent (+1 (631) 972-8183 )

When you guys finish implementing the movement, let me know so Alex and I can test it . We should consider trying to get our code to run with MiniAT if we haven't attempted to already

08:10:12

Ian Kurzrock (+1 (845) 807-4090 )

And if you meant to also say Bryan , get MiniAT running on our windows computers or alternatively All get the virtual box and run his Linux machine

08:11:34

Bryan Berrent (+1 (631) 972-8183 )

Exactly what I meant . You were able to get it running on Windows correct ?

08:13:07

Ian Kurzrock (+1 (845) 807-4090 )

08:14:45

Almost , not since he updated it to work

Bryan Berrent (+1 (631) 972-8183 )

Okay . Then maybe we should go the virtual box route ? I don't know exactly how to proceed with that though

08:15:45

Ian Kurzrock (+1 (845) 807-4090 )

08:21:33

Well let 's decide as a group , I can go to him sometime during the week , or we can all install the box Wednesday

08:21:35

Let me know

Bryan Berrent (+1 (631) 972-8183 )

Doesn't matter to me . We could meet with him on Wednesday to talk about it

08:22:54

Ian Kurzrock (+1 (845) 807-4090 )

08:29:13

Also Matt I just got back so I 'm gonna shower quickly and then text you when I head over

Matt Thauvette (+1 (315) 744-7171 )

Yep, I'm doing laundry atm

08:33:02

Ian Kurzrock (+1 (845) 807-4090 )

08:41:30

I'm done Matt

Matt Thauvette (+1 (315) 744-7171 )

Are you clean ? Washed behind your ears and everything ?

08:43:46

Ian Kurzrock (+1 (845) 807-4090 )

08:50:11

Yes all of it !

08:50:20

I'll head to the lounge now ?

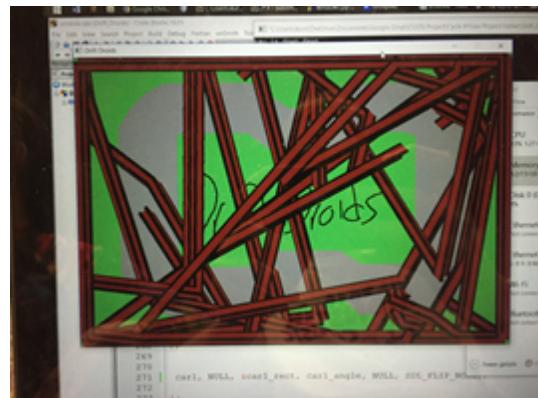

Matt Thauvette (+1 (315) 744-7171 )

With laptop , yeah. You're setting the agenda

08:51:29

Ian Kurzrock (+1 (845) 807-4090 )

Brian Malsan , Matt Thauvette , Alex Stewart , Bryan\attachment 1.JPG

09:23:23

Guys I think we broke it

Bryan Berrent (+1 (631) 972-8183 )

Oh god 😱

09:29:09

Ian Kurzrock (+1 (845) 807-4090 )

10:13:19

Just kidding Matt and I got some good work done

Bryan Berrent (+1 (631) 972-8183 )

Great!

10:14:19

Ian Kurzrock (+1 (845) 807-4090 )

10:16:37

We obviously got that fixed , Brian as the reference

Tuesday , February 28, 2017

Ian Kurzrock (+1 (845) 807-4090 )

08:27:11

Confer emailed us all about the status report, Alex and Bryan , are you guys gonna submit the status report ?

Bryan Berrent (+1 (631) 972-8183 )

Yup

09:32:25

Wednesday , March 1, 2017

Matt Thauvette (+1 (315) 744-7171 )

Woops , overslept a bit. What are you guys have up to , and is there any code I should work on ?

11:10:41

Bryan Berrent (+1 (631) 972-8183 )

We have been testing the code as well as trying to figure out to check the size of an image

11:12:22

Matt Thauvette (+1 (315) 744-7171 )

Nice, good to hear we're testing stuff . Is the code Ian and I worked on Monday on the Google drive or bit bucket ?

11:17:44

Ian Kurzrock (+1 (845) 807-4090 )

12:20:39

It's in my project folder on Drive

Friday, March 10, 2017

Ian Kurzrock (+1 (845) 807-4090 )

09:12:09

Got our messages exported , I'll post it in Drive for you guys to see . I'll do another export before the end of the cycle with the updated messages

Bryan Berrent (+1 (631) 972-8183 )

Perfect. I'm going to be working on the status report today .

09:13:38

Hope everyone is have a great break and picked up a Nintendo Switch !

09:14:12

Status report finish . Feel free to look it over. I'll submit it tomorrow morning

04:42:44

Brian Malsan (+1 (518) 894-0132 )

On the status report I got rid of lack of documentation as a risk since Confer said it wasn't one on the last one . Then the only thing is people 's hours worked have to be updated for the past 2 weeks

11:34:49

Bryan Berrent (+1 (631) 972-8183 )

I did update the hours a bit but I didn't know the exact numbers

11:36:23

Brian Malsan (+1 (518) 894-0132 )

I just had to add some for me because I work a bit on it this week

11:40:29

Saturday, March 11, 2017

Bryan Berrent (+1 (631) 972-8183)

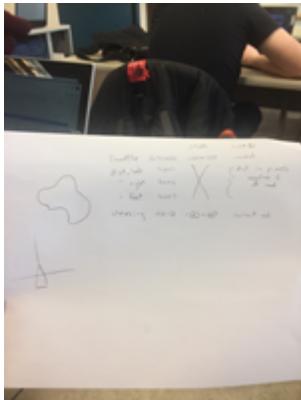

Okay no worries . I'll take screenshots  
of the new charts tomorrow

12:05:26

Monday, March 13, 2017

Brian Malsan (+1 (518) 894-0132)

11:38:45

Brian Malsan , Matt Thauvette , Alex Stewart , Bryan\attachment 2.jpg

Miniat peripherals

11:38:45

Ian Kurzrock (+1 (845) 807-4090 )

What time are we meeting together  
and are we meeting in ADK suite F ?

Bryan Berrent (+1 (631) 972-8183)

I believe we agreed on meeting around  
2

06:53:21

06:52:08

Ian Kurzrock (+1 (845) 807-4090 )

And we need to print off all of the  
deliverables too

Bryan Berrent (+1 (631) 972-8183)

I have printer if needed

06:57:17

Tuesday, March 14, 2017

Matt Thauvette (+1 (315) 744-7171 )

We still set for 2 at F?

01:46:49

Bryan Berrent (+1 (631) 972-8183 )

Yes sir

01:48:39

We could always stay in our rooms  
and work on the powerpoint if you guys  
don't feel like leaving your rooms but I  
feel like meeting would be better so we  
could go over what we are saying

01:55:02

Matt Thauvette (+1 (315) 744-7171 )

Indeed. I'll be omw shortly .

01:58:08

Ian Kurzrock (+1 (845) 807-4090)

01:58:32

I'll be a little late but will be there

Bryan Berrent (+1 (631) 972-8183)

Okay

01:58:46

Brian Malsan (+1 (518) 894-0132)

Leaving my suite now if you could let  
me in in like a minute

02:03:12

Ian Kurzrock (+1 (845) 807-4090)

02:09:05

I'll let you guys know when I 'm leaving  
my suite , just got back and need to  
shower

Bryan Berrent (+1 (631) 972-8183)

Okay

02:09:38

Matt Thauvette (+1 (315) 744-7171 )

I'll wait a bit longer as well , then.

02:10:47

Bryan Berrent (+1 (631) 972-8183)

Ok

02:44:11

Matt Thauvette (+1 (315) 744-7171 )

Ok, I'm coming over now .

02:49:48

Ian Kurzrock (+1 (845) 807-4090)

02:50:32

Same

Wednesday , March 15, 2017

Ian Kurzrock (+1 (845) 807-4090)

09:05:39

Bryan, you called it with the morning  
classes being cancelled last night .

Bryan Berrent (+1 (631) 972-8183)

Haha I sure did . I'll have my laptop on  
my trip so if we want to do any final  
tweaks on the project , let me know

10:32:17

Ian Kurzrock (+1 (845) 807-4090)

10:35:08

Sure thing . As for the binder is  
concerned , it's finished and ready for  
submission .

Bryan Berrent (+1 (631) 972-8183)

Beautiful. I have the architectural spike  
powerpoint printed . I am just going to  
wait until Monday morning to print the  
other one

10:36:21

Ian Kurzrock (+1 (845) 807-4090)

10:36:56

Yes I forgot we have a couple things  
we have need to print in color 😊

Bryan Berrent (+1 (631) 972-8183)

We will be all good for Monday though  
😎

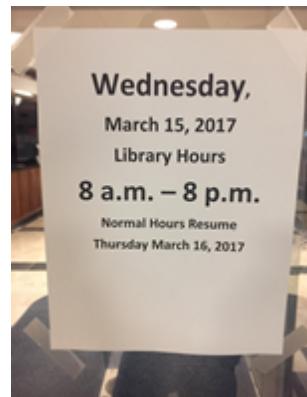

10:39:13

Ian did you print our proposal from the  
Architectural spike or did you want me  
to do that ?

10:47:09

Ian Kurzrock (+1 (845) 807-4090)

10:20:00

Brian Malsan , Matt Thauvette , Alex Stewart , Bryan\attachment 3.JPG

Damn, well I guess I'm hole punching  
the binder tomorrow !

Bryan Berrent (+1 (631) 972-8183)

Oh no!

10:24:09

Ian Kurzrock (+1 (845) 807-4090)

10:59:11

Oh well I can just do it tomorrow

Thursday, March 16, 2017

Ian Kurzrock (+1 (845) 807-4090)

07:18:23

I made a lessons learned document ,  
it's in the "lessons learned " folder in  
the "binder".  
Feel free to add anything to you believe  
we learned when working on this  
project

Saturday, March 18, 2017

Ian Kurzrock (+1 (845) 807-4090)

09:33:39

Bryan, Alex, and Matt. If you three  
could go into drive , look at the  
"Lessons Learned " document, see if  
we should add anything else , and then  
just reply back here "It's good" if you  
think it's good, then I can have the  
lessons learned part printed and put in

the binder, that would be great . Then we are done with the binder for now , till next cycle .

Bryan Berrent (+1 (631) 972-8183)

I won't be able to look at it until tonight . I will let you know when I can

09:34:50

I added BitBucket to the lessons learned but other than that , everything looks great !

04:03:53

Matt Thauvette (+1 (315) 744-7171)

It seems fine to me .

07:58:58

Sunday, March 19, 2017

Matt Thauvette (+1 (315) 744-7171)

We should go over our stuff sometime ; maybe before class tomorrow . When could we all be there by ?

06:18:45

Bryan Berrent (+1 (631) 972-8183)

Get there a half hour before like last time?

06:19:42

Matt Thauvette (+1 (315) 744-7171)

I can be there by 9:30, and it should be long enough.

06:20:43

Ian Kurzrock (+1 (845) 807-4090)

We need a status report done

Bryan Berrent (+1 (631) 972-8183)

Alex is working on it now .

09:00:04

Ian Kurzrock (+1 (845) 807-4090)

I'll make sure I print it and put it with the binder tomorrow along with lessons learned

Bryan Berrent (+1 (631) 972-8183)

I printed the slides btw .

09:03:05

Alex Stewart (+1 (518) 860-4845 )

Do you guys want to check the status report before I submit it ?

09:25:34

Brian Malsan (+1 (518) 894-0132)

It should be fine

09:29:57

Ian Kurzrock (+1 (845) 807-4090)

I just added a few things

09:30:35

Alex saw me though

Brian Malsan (+1 (518) 894-0132)

Make sure to fix your hours to up to date stuff

09:46:23

Ian Kurzrock (+1 (845) 807-4090 )

11:34:46

Make sure it 's up to date so I can print out the right copy for tomorrow . I'll print it because it needs to go inside the binder

Saturday, March 25, 2017

Ian Kurzrock (+1 (845) 807-4090 )

10:10:09

So can we meet up today to work on 370 stuff?

10:10:17

What time works best for everyone ?

10:21:47

Bryan is AHAB doing anything today ? Is like after dinner work for everyone ?

Brian Malsan (+1 (518) 894-0132)

Sure

10:22:48

Bryan Berrent (+1 (631) 972-8183 )

We have our Price is Right event at 7

10:23:03

Ian Kurzrock (+1 (845) 807-4090 )

10:23:50

Do you have to set up early ? Should be meet up before dinner ? Like 2ish?

Bryan Berrent (+1 (631) 972-8183 )

I gotta set up at 6 so 2 works better for me

10:26:15

Brian Malsan (+1 (518) 894-0132)

2 works for me

10:39:38

Ian Kurzrock (+1 (845) 807-4090 )

10:40:08

Where is the question

Bryan Berrent (+1 (631) 972-8183 )

Doesn't matter

10:43:07

Could go to Panera and work there if you guys want to get lunch ?

10:44:18

Ian Kurzrock (+1 (845) 807-4090 )

10:47:33

I like that idea but Matt I don 't think has a way to get there

Brian Malsan (+1 (518) 894-0132)

I would kinda prefer to not leave campus . But I will do what the group wants

10:48:52

Bryan Berrent (+1 (631) 972-8183 )

I have my car so he can hop in with me or whoever. If anything, we could just meet at the library at 2

10:49:07

Then let's stay here and meet up at 2

10:49:29

Brian Malsan (+1 (518) 894-0132 )

10:50:26

Library at 2?

Matt Thauvette (+1 (315) 744-7171 )

I'm having lunch with my grandmother today , so I can 't make anything early this afternoon . I'm open later and tomorrow.

10:51:17

If you guys need to meet up early today that 's fine, just set aside something for me to work on if you can.

Bryan Berrent (+1 (631) 972-8183 )

10:53:10

Does tomorrow work with everyone so we can meet with the whole group ?

Ian Kurzrock (+1 (845) 807-4090 )

Well the only thing with Sunday is Cosplay is sunday

Brian Malsan (+1 (518) 894-0132 )

10:54:18

I can do tomorrow morning

Bryan Berrent (+1 (631) 972-8183 )

10:54:52

True. And i just remembered about sgu training as well . What if we met around 5 today ? Or tomorrow morning works too

Matt Thauvette (+1 (315) 744-7171 )

10:55:48

Either of those should work for me .

Ian Kurzrock (+1 (845) 807-4090 )

5 today

10:58:15

10:58:22 Let's do 5 today we can meet in ADK

10:58:39 Lounge

Bryan Berrent (+1 (631) 972-8183)

I have to leave by 6 just fyi

10:59:08

Brian Malsan (+1 (518) 894-0132)

10:59:38

Bryan Berrent (+1 (631) 972-8183)

10:59:56

But that works . See you guys then

Matt Thauvette (+1 (315) 744-7171)

12:58:53

I actually can make two if you still want that

Bryan Berrent (+1 (631) 972-8183)

01:04:36

I can't meet then anymore .

Matt Thauvette (+1 (315) 744-7171)

01:17:06

No problem, five is good

Ian Kurzrock (+1 (845) 807-4090)

01:24:25

Alright so still 5 in lounge?

Bryan Berrent (+1 (631) 972-8183)

05:05:07

I am sorry this is last minute but I can't come. I have to do some things for AHAB tonight . If you could , assign me something to do and I will get right on it when I can

Alex Stewart (+1 (518) 860-4845)

05:06:30

Ya I'll be there , are you guys already there?

Alex Stewart (+1 (518) 860-4845)

05:08:59

Okay I'll be there shortly

Bryan Berrent (+1 (631) 972-8183)

09:26:10

Yup! Just brushing my teeth

Sunday, March 26, 2017

Ian Kurzrock (+1 (845) 807-4090)

09:25:18

Hey Bryan I'm coming over now , we still good for 9:30?

Ian Kurzrock (+1 (845) 807-4090 )

09:26:42

Alright see you in a bit !

06:37:58

Who still wants to meet up for tomorrow?

07:09:17

I mean tonight sorry

07:09:28

Does anyone want to still meet up tonight?

Brian Malsan (+1 (518) 894-0132)

I can't

07:38:01

Ian Kurzrock (+1 (845) 807-4090 )

10:34:12

Good job Brian on that document

Wednesday , March 29, 2017

Matt Thauvette (+1 (315) 744-7171 )

Drifting is beautiful , still could use some minor tweaking but works as intended.

12:45:50

Bryan Berrent (+1 (631) 972-8183 )

12:50:16

Tuesday , April 4, 2017

Matt Thauvette (+1 (315) 744-7171 )

I attempted to throw my changes into the windows code this morning , and put it in a separate folder .

12:50:04

Ian Kurzrock (+1 (845) 807-4090 )

01:57:35

How is it looking ?

Bryan Berrent (+1 (631) 972-8183 )

So I'm currently trying to condense our main a bit by making separate classes . I see we have embedded classes but I 'm just looking to make our code look cleaner and it will be easier to find a certain section . Hoping it all goes well 🌟

02:33:49

Ian Kurzrock (+1 (845) 807-4090 )

03:02:52

Be careful , we only have 1 class and multiple user created functions , some of them are confers MiniAt functions

Bryan Berrent (+1 (631) 972-8183)

I will. I have one error and then I finished the vehicle class . Its giving me a C++ prevents vehicle with no type

03:05:11

Ian Kurzrock (+1 (845) 807-4090)

05:43:16

Okay , we can go over the errors and changes to be made tomorrow

Thursday, April 6, 2017

Alex Stewart (+1 (518) 860-4845 )

Does anyone have the main I put in with four cars I messed mine up and was hoping someone could email it to me stewara 1@sunyit.edu

06:32:30

Ian Kurzrock (+1 (845) 807-4090 )

06:32:52

Sure I still have it and can send it to you

Alex Stewart (+1 (518) 860-4845 )

Perfect!

06:34:32

Ian Kurzrock (+1 (845) 807-4090 )

06:34:45

You got it ?

Alex Stewart (+1 (518) 860-4845 )

Yes thank you

06:37:03

Ian Kurzrock (+1 (845) 807-4090 )

06:37:19

Awesome !

Friday, April 7, 2017

Brian Malsan (+1 (518) 894-0132 )

Can everyone meet today to work on the PowerPoint . I'm thinking 3:30 in ADK Lounge

09:31:56

Ian Kurzrock (+1 (845) 807-4090 )

09:37:07

I'm good, everyone else ?

Bryan Berrent (+1 (631) 972-8183 )

Might be a little late but I will be there

09:47:37

Matt Thauvette (+1 (315) 744-7171 )

That's fine.

12:59:40

Bryan Berrent (+1 (631) 972-8183 )

People in the lounge now , you guys want to come to my suite ??

03:29:52

Actually nvm on that . People are blasting music in my common room 😱

03:31:45

You guys just wanna work on it at our dorms ?

03:32:30

Brian Malsan (+1 (518) 894-0132)

We can work at M 3.

03:34:59

Ian's and my common room is free

03:37:46

Bryan Berrent (+1 (631) 972-8183)

Alex and I are on our way

03:39:05

Wednesday , April 19, 2017

Bryan Berrent (+1 (631) 972-8183)

06:55:22

Brian Malsan , Matt Thauvette , Alex Stewart , Bryan\attachment 4.jpeg

After a whole day of factory reseting , it finally works !!!!!

06:55:22

Ian Kurzrock (+1 (845) 807-4090)

06:56:01

I hope you now try pulling ha ha

Bryan Berrent (+1 (631) 972-8183)

Will do

06:56:54

Thursday, April 20, 2017

Bryan Berrent (+1 (631) 972-8183)

Little late but I got sound working on the program but it is all distorted . I will push the changes now

01:26:11

Ian Kurzrock (+1 (845) 807-4090)

08:37:23

Hey guys , when is the best time we can meet this weekend for the project ? I would like to get some more work done on it in terms of tying everyone 's features together

10:36:20

Between Friday , Saturday , and Sunday , which is best ?

Brian Malsan (+1 (518) 894-0132)

Saturday

10:38:55

Ian Kurzrock (+1 (845) 807-4090 )

10:40:44

Time?

Brian Malsan (+1 (518) 894-0132)

Anytime

10:41:37

Saturday , April 22, 2017

Matt Thauvette (+1 (315) 744-7171 )

I'd prefer either early morning or late afternoon, but could make early afternoon if you really need .

05:31:04

Bryan Berrent (+1 (631) 972-8183 )

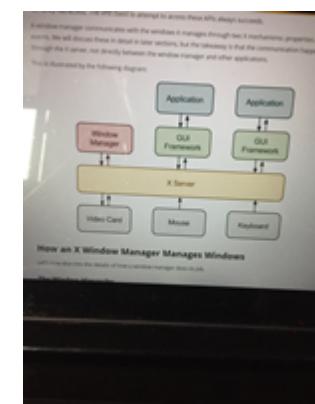

Ayeeeeee

10:37:59

Monday , April 24, 2017

Ian Kurzrock (+1 (845) 807-4090 )

Brian Malsan , Matt Thauvette , Alex Stewart , Bryan\attachment 5.JPG

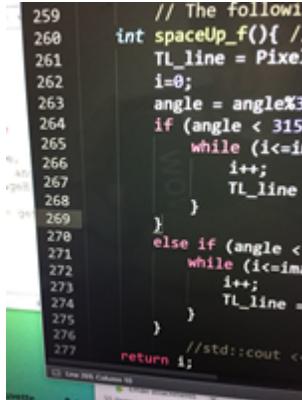

07:22:00

Matt , this is what I was talking about earlier

Wednesday , April 26, 2017

Ian Kurzrock (+1 (845) 807-4090)

```
259     // The followi
260     int spaceUp_f(){ /
261         TL_line = Pixel
262         i=0;
263         angle = angle%3
264         if (angle < 315
265             while (i<im
266                 i++;
267                 TL_line =
268             }
269         }  
else if (angle <
270         while (i<im
271             i++;
272             TL_line =
273         }
274     } //std::cout <<
275     return i;
276 }
```

03:32:45

Brian Malsan , Matt Thauvette , Alex Stewart , Bryan\attachment 6.JPG

03:32:45

That bracket right there on 269 was not typed and fucked up all the code .

Matt Thauvette (+1 (315) 744-7171)

Ahhh. Glad you found it .

03:55:28

Thursday, April 27, 2017

Ian Kurzrock (+1 (845) 807-4090)

11:11:49

Ladies and gentleman , our program runs on ubuntu and builds with second

Bryan Berrent (+1 (631) 972-8183)

11:19:19

11:22:09

Ian Kurzrock (+1 (845) 807-4090)

My plan is to manually enter everyone's changes into the Ubuntu version

11:22:20

No more screwing things up with source tree

Saturday, April 29, 2017

Matt Thauvette (+1 (315) 744-7171)

So what's the plan for tomorrow (and, by extension , Monday)?

07:08:07

07:09:24

Ian Kurzrock (+1 (845) 807-4090)

What's the earliest convenience for everyone tomorrow?

And here is what needs left to be done for Monday:

1. I need all changes people made to manually enter into the code .
2. Demonstrate that we can work with MiniAT. (I was thinking someone make a bot that moves forward , then turns left, then turns right , then backward , to

07:15:49

demonstrate we have all functions working with MiniAT and the player can figure out their robot from there , we can also demonstrate that we have distant functions working too )  
3. Testing all new features and recording the results  
4. Put together our slide show  
5. Put all of our up to date deliverables in the repository so he can download them and check them for us  
6. Record videos or just run a live demo for the slide show

Brian Malsan (+1 (518) 894-0132)

I was thinking 12:00 tomorrow

07:19:07

Matt Thauvette (+1 (315) 744-7171)

I would just need a short break around 1 to help my father with mini fridge removal at my dorm . Other than that I'm free.

07:20:29

07:21:58

Ian Kurzrock (+1 (845) 807-4090)

We can help with that , can someone who is free work on making an assembly robot that just moves forward, left, right, back, and reads all distance functions . It can do that in that order, but just that it does that is important

07:22:30

Also if someone else can test all the features we have now, that will save time for us tomorrow

Bryan Berrent (+1 (631) 972-8183)

So I'm going to be testing the collision and music . Was there any features I missed ? Also I don't really know how to write in assembly very well . I planned on studying for my 330 test as well as finishing the paper for it . I don't know if I will have time to meet , but give me things to do and they will be done by Monday . I'll do testing documents for them too

10:20:50

Sorry for not answering sooner . I went out with people for my birthday

10:22:33

Bryan Berrent (+1 (631) 972-8183)

Not my birthday yet but thanks !  
Birthday is May 9th 😊

10:27:44

10:26:49

Ian Kurzrock (+1 (845) 807-4090)

That's fine and happy birthday Bryan

Ian Kurzrock (+1 (845) 807-4090)

10:28:22

Ohhhh so happy later birthday

Bryan Berrent (+1 (631) 972-8183)

Thanks haha

10:31:44

Collision is working great so far btw

10:31:59

Ian Kurzrock (+1 (845) 807-4090)

10:32:17

So if we wanna delegate tasks , I say go ahead Bryan with testing of those

Bryan Berrent (+1 (631) 972-8183)

I'm going to hopefully get a cleaner map going as well . I will keep you all posted with what I do . All will be on the drive

10:33:40

Ian Kurzrock (+1 (845) 807-4090)

10:34:07

Alex , I think we need to move music off the command line , so can you change it as such ? And also , can you make a folder called assets , and change the program to open from that folder . All you would have to do is add "assets /" to the beginning of the string

10:34:34

This is so the user is not required to place images and songs right with the executable , and can leave them in a folder

Bryan Berrent (+1 (631) 972-8183)

I kinda like it on the command line because it leaves customization open for the user . They can play any sound they want as long as it is .wav file

10:35:40

Collision is tested and documented . Added some slides as well . Time to test music !

11:21:48

Music is tested and works with different file types besides .wav which is interesting

11:33:16

Sunday, April 30, 2017

Alex Stewart (+1 (518) 860-4845)

Where are we meeting and I can only stay until 1 due to prior commitments

10:28:47

Brian Malsan (+1 (518) 894-0132)

10:57:35

We'll meet at 12:00 in suite M

Bryan Berrent (+1 (631) 972-8183 )

I'll meet for an hour as well but like I said earlier , I need to finish 330 work.

10:59:01

Ian Kurzrock (+1 (845) 807-4090 )

11:09:37

I just need to manually add people 's changes to the project so if I can work with everyone today at some point to add their changes , that would be great . The rest of us can work on the presentation

Matt Thauvette (+1 (315) 744-7171 )

I'm on my way .

12:00:24

Alex Stewart (+1 (518) 860-4845 )

Same

12:00:53
